MEMORANDUM FOR: Director of Training and Education

FROM:

Assistant Director of Training for Curriculum

SUBJECT: Orientation for CT Spouses

1. We will cancel the CIA Orientation for Spouses course. However, I still see a need to tell the spouses something about the Agency and the program that their spouses are participating in for a year or more.

2. When I went through the CT Program, they brought my wife in for a half-day session on a Saturday morning. She found it very informative and useful to her in understanding what I was doing and why. I also found it useful to me in helping her to understand when it was necessary for me to be away for periods of time.

3. I suggested to Betty that they canvass the current CT class and see if there is any such interest. I propose that we reinstitute this Saturday morning session. Essentially, what we would do is brief them about the Agency, tell them about the program their spouse is in, and have somebody from Cover Staff and Security talk with them. Nothing elaborate and fairly quick, but I believe quite useful.

4. I request your approval to proceed.
